## Part II Political affairs

### Section 3 Political affairs

(Programme 1 of the medium-term plan for the period 2002-2005)

#### Overview

- 3.1 The Department of Political Affairs is responsible for the implementation of the work programme of this section. The legislative authority for the programme derives from the Charter of the United Nations, the pertinent resolutions of the General Assembly and the mandates of the Security Council. The activities carried out under this section fall under the various subprogrammes of programme 1, Political affairs, of the medium-term plan for the period 2002-2005.
- 3.2 The overall objective is to assist States involved in disputes or conflicts to resolve their differences peacefully in accordance with the principles of the Charter and resolutions of the United Nations and, wherever possible, to prevent conflicts from arising through preventive diplomacy and peacemaking. To fulfil this objective, the Department assists in the prevention, control and resolution of conflicts, including post-conflict peace-building; provides electoral assistance to Member States, on their request and in accordance with the relevant decisions of the General Assembly and the Security Council; and provides secretariat services and substantive support to the General Assembly in connection with the activities of the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples and the Committee on the Exercise of the Inalienable Rights of the Palestinian People, the Security Council and other related intergovernmental bodies.
- 3.3 During the biennium 2002-2003, the focus will be on the reinforcement of the Organization's capacity for early warning, good offices and non-military measures to prevent disputes from escalating into conflicts and for resolution of conflicts that have erupted, while fully respecting the sovereignty, territorial integrity and political independence of Member States. Special attention will also be given to the role of the Department as the focal point for post-conflict peace-building activities, as well as to the responsibilities of the Under-Secretary-General as the United Nations Focal Point for Electoral Assistance Activities. The Department will continue to strengthen its cooperation with the regional organizations and to incorporate a gender perspective in its data collation, research and analysis activities. Secretariat support and services provided by the Security Council Affairs Division will increase significantly in the light of the Council's frequent resort to the practice of conducting fact-finding missions and establishing various expert panels dealing with the mandatory measures imposed by the Council. In addition, secretariat support and services have also increased with respect to periodic missions undertaken by the Chairpersons of the Sanctions Committee to the countries concerned. Sustained efforts will also be made to complete the eleventh Supplement to the *Repertoire of the Practice of the Security Council*, as well as volume III of Supplement No. 6 and volume V of Supplement No. 7 to the *Repertory of Practice of United Nations Organs*.
- 3.4 The resources for the Department of Political Affairs are presented under subsection A, with a total requirement of \$44,575,000, reflecting a growth of \$950,300. The increase relates to the establishment of two new posts (1 P-4 and 1 P-3) under subprogramme 1 for political affairs officers in the Africa I and II Divisions; one new P-3 post under subprogramme 3 for a database manager for the Security Council Affairs Division; and a reclassification of a General Service

(Other level) post in the Information Management Team in the Executive Office to the Principal level. In addition, there are increases in non-post resources for temporary assistance, consultants and travel. These increases are partly offset by decreases in general operating expenses and furniture and equipment.

- 3.5 Under subsection B, the amount of \$93,691,600, as decided by the General Assembly in its resolution 55/233 of 23 December 2000 on the proposed programme budget outline for the biennium 2002-2003, provides for special political missions related to peace and security that are expected to be extended or approved in the course of the biennium 2002-2003. The decrease of \$21,590,100 represents the termination of MICIVIH, MICAH and other non-recurrent activities, as well as the gradual reduction on the activities of MINUGUA.
- 3.6 The requirements for the Office of the United Nations Special Coordinator for the Middle East Peace Process indicated under subsection C remain at the maintenance level. Resources are, however, realigned between objects of expenditure on the basis of expenditure experience and the anticipated requirements for the biennium.
- 3.7 The overall level of resources of the section for the biennium 2002-2003 amounts to \$147,204,900 before recosting, comprising the resources for the Department of Political Affairs (\$44,575,000); the provision for special political missions (\$93,691,600); and the resources for the Office of the United Nations Special Coordinator for the Middle East Peace Process (\$8,938,300). The overall resources for the section reflect a decrease of \$20,639,800, compared to the revised appropriation for the biennium 2000-2001. The net reduction consists of a growth of \$950,300 in the Department of Political Affairs, offset by a decrease of \$21,590,100 in the provision for special political missions.
- 3.8 During the biennium, extrabudgetary resources estimated at \$9,536,100 will be utilized to supplement substantive activities in the areas of preventive diplomacy, conflict resolution, peacemaking, peace-building and electoral assistance. The decrease in extrabudgetary resources is mainly owing to the termination in 2001 of MICAH, which comprised a large technical assistance component funded from voluntary contributions.
- 3.9 The estimated percentage distribution of resources in the biennium 2002-2003 under section 3 of the programme budget would be as follows:

## 1. Policy-making organs

### (a) Security Council

#### *Resource requirements (before recosting): \$106,000*

- 3.11 The Security Council, one of the principal organs of the United Nations, was established under Article 7 of the Charter of the United Nations and is charged with the primary responsibility for the maintenance of international peace and security. As specified in Article 28 of the Charter, the Council is so organized as to be able to function continuously. The Council is authorized, under Article 29 of the Charter, to establish such subsidiary organs as it deems necessary for the performance of its functions. There are currently 13 such organs: the Security Council Committee of Experts; the Security Council Committee on the Admission of New Members; the Security Council Committee on Security Council Meetings away from Headquarters; the Security Council Committee established by resolution 661 (1990) concerning the situation between Iraq and Kuwait; the Security Council Committee established pursuant to resolution 748 (1992) concerning the Libyan Arab Jamahiriya; the Security Council Committee established pursuant to resolution 751 (1992) concerning Somalia; the Security Council Committee established pursuant to resolution 864 (1993) concerning the situation in Angola; the Security Council Committee established pursuant to resolution 918 (1994) concerning Rwanda; the Security Council Committee established pursuant to resolution 1132 (1997) concerning Sierra Leone; the Security Council Committee established pursuant to resolution 1160 (1998) concerning the Federal Republic of Yugoslavia; the Security Council Committee established pursuant to resolution 1267 (1999) concerning the situation in Afghanistan; the Security Council Committee established pursuant to resolution 1298 (2000) concerning the situation between Eritrea and Ethiopia; and the Security Council Committee established pursuant to resolution 1343 (2001) concerning Liberia. In some cases, the Security Council has also established panels of experts to assist these subsidiary organs as and when required.

**(b) Committee on the Exercise of the Inalienable Rights of the Palestinian People**

***Resource requirements (before recosting): \$56,100***

3.13 The Committee on the Exercise of the Inalienable Rights of the Palestinian People was established pursuant to General Assembly resolution 3376 (XXX) of 10 November 1975. The Committee meets throughout the year as required and submits an annual report to the General Assembly. In discharging its mandate to exert all efforts to promote the exercise of the inalienable rights of the Palestinian people, the Committee participates in meetings, sends delegations on missions and, on special occasions, invites prominent personalities or experts. By its decision 52/317 of 9 December 1997, the Assembly increased the membership of the Committee from 23 to 25. Its mandate, which has been expanded over the years, was most recently reaffirmed by the Assembly in its resolution 55/52 of 1 December 2000. It is envisaged that the Committee will remain in existence until a just, comprehensive and lasting settlement of the question of Palestine has been achieved and the inalienable rights of the Palestinian people are fully realized.

## 2. Executive direction and management

### *Resource requirements (before recosting): \$5,654,200*

- 3.15 The Office of the Under-Secretary-General provides overall policy direction, supervision and management of the Department. In addition to performing the functions of head of department, the Under-Secretary-General for Political Affairs provides the Secretary-General with advice and support on political matters; convenes regular meetings of the Executive Committee of Peace and Security; provides political guidance and instructions to special envoys and special representatives of the Secretary-General; directs and manages good offices, fact-finding and other special political missions; undertakes consultations and negotiations relating to the peaceful settlement of disputes; advises the Secretary-General on matters relating to post-conflict peace-building, for which the Department is the focal point; and acts as the United Nations Focal Point for Electoral Assistance Activities.
- 3.16 In the exercise of his responsibilities, the Under-Secretary-General is assisted by two Assistant Secretaries-General. One Assistant Secretary-General supervises the Africa I and II Divisions and the Security Council Affairs Division and the other supervises the Americas and Europe Division, the Asia and the Pacific Division, the Division for Palestinian Rights and the Decolonization Unit. The Electoral Assistance Division is supervised by a Director, who reports directly to the Under-Secretary-General.
- 3.17 In view of the cross-cutting nature of its work, the Policy Planning Unit will be redeployed from subprogramme 1, Prevention, control and resolution of conflicts, to the Office of the Under-Secretary-General.

- 3.18 The resources for posts indicated above provide for continuation of the existing posts and redeployment of the Policy Planning Unit (2 P-4, 2 General Service (Other level)) to the Office of the Under-Secretary-General. The increase in non-post resources relates primarily to the redeployment of requirements for consultants and experts previously provided under subprogramme 1 for the Policy Planning Unit and to travel of staff on the basis of expenditure patterns with respect to fact-finding missions and participation in meetings of regional organizations.

- 3.23 The above resources provide for the continuation of 76 posts, reflecting the redeployment of the Policy Planning Unit (2 P-4, 2 General Service (Other level)) to the Office of the Under-Secretary-General and the establishment of two new posts (1 P-4, 1 P-3) for the Africa I and Africa II Divisions. The net reduction in non-post items relates primarily to the redeployment to executive direction and management of requirements for consultants and experts previously provided under subprogramme 1 for the Policy Planning Unit, a decrease for general temporary assistance and overtime and an increase for travel in connection with fact-finding missions.

## **Subprogramme 2**

### **Electoral assistance**

#### ***Resource requirements (before recosting): \$3,349,200***

- 3.24 This subprogramme provides electoral assistance to Member States, upon their request, in accordance with the relevant decisions of the General Assembly and the Security Council. Pursuant to General Assembly resolution 46/137 of 17 December 1991, the Electoral Assistance Division was created to support the Under-Secretary-General for Political Affairs in his capacity as the United Nations Focal Point for Electoral Assistance Activities.

- 3.25 The Electoral Assistance Division is the formal entry point for all requests for electoral assistance made to the United Nations system. As such, the Division is responsible for assessing those requests, and coordinating all assistance provided by United Nations organizations in the electoral field. When a request is received by the Focal Point for Electoral Assistance, the Division dispatches a needs-assessment mission to the requesting Member State. Such a mission is the first critical step in technically and politically evaluating what type of assistance the United Nations system may give and what course of action should be pursued.

- 3.44 The staffing requirements include provisions for the existing posts with a reclassification of a General Service (Other level) post to the Principal level. The non-post portion provides for temporary assistance related to the preparation of the *Repertory of Practice of United Nations Organs* and short-term replacement of staff; subscription to online news services; general operating expenses of the Department, such as communications and supplies and acquisition and replacement of furniture and equipment.

#### B. Special political missions

**Resource requirements: \$93,691,600**

- 3.45 In its resolution 55/233, the General Assembly endorsed the recommendation of the Advisory Committee on Administrative and Budgetary Questions contained in paragraph 8 of its report (A/55/685 and Corr.1) that provision should be made in the budget outline for expenditures for special political missions related to peace and security that are expected to be extended or approved in the course of the biennium. The Assembly also decided that the preliminary estimate of resources for the proposed programme budget for the biennium 2002-2003 should include a provision for special political missions, in the amount of \$93.7 million dollars at revised 2000-2001 rates, which should be reflected in the proposed programme budget for the biennium 2002-2003, and that additional requirements should continue to be treated in accordance with the provisions of General Assembly resolution 41/213 of 19 December 1986.

- 3.46 Accordingly, provisions of \$93,691,600 are made under this subsection for special political missions related to peace and security that are expected to be extended or approved by the General Assembly and/or the Security Council during the course of the biennium 2002-2003. Such missions may include, but are not limited to, those missions, the list of which was provided to the Advisory Committee during its consideration of the proposed programme budget outline for the biennium 2002-2003 and which are listed in its related report on the subject (A/55/685 and Corr.1). As in the biennium 2000-2001, the utilization of the amount will be subject to individual legislative mandates and approval by the General Assembly as and when the General Assembly and/or Security Council establish or renew such mandates. Detailed justification of resource requirements will be submitted to the General Assembly through the Advisory Committee in the same manner as statements of programme budget implications and revised estimates. Once the Advisory Committee has reviewed such proposals and made its recommendations, it will be up to the General Assembly to agree that such requirements will represent an appropriate charge against the \$93.7 million provision for special political missions. Such determination can be made by the Assembly just prior to commencement of a biennium and midway through a biennium.
- 3.47 Any additional requirements over and above the provisions of \$93,691,600 will continue to be treated in accordance with the provisions of annex I, paragraph 11, of General Assembly resolution 41/213. Those additional resources will be requested in the context of the report of the Secretary-General on the statement of programme budget implications arising from draft resolutions of the General Assembly at that time, and/or in the context of the revised estimates in respect of matters of which the Security Council is seized, or the budget performance reports for the biennium.

- 3.48 The above provisions are calculated on the basis of the cost of existing political missions that are expected to be extended by the General Assembly and/or the Security Council during the biennium 2002-2003, providing that no significant changes would be requested concerning the level of activities of those missions. The specific resource requirements, however, can only be determined on the basis of statements of programme budget implications arising from draft resolutions of the General Assembly or from decisions of the Security Council concerning the mandates of those missions.

### **C. Office of the United Nations Special Coordinator for the Middle East Peace Process**

*Resource requirements (before recosting): \$8,938,300*

- 3.49 In June 1994, the Secretary-General appointed the first United Nations Special Coordinator in the Occupied Territories with a view to ensuring the coordinated work of the United Nations system for an adequate response to the needs of the Palestinian people and to mobilize financial, technical, economic and other assistance. The appointment was made concurrent with the full establishment of the Palestinian Authority in accordance with the Declaration of Principles on Interim Self-Government Arrangements and the Agreement on the Gaza Strip and the Jericho Area signed by Israel and the Palestine Liberation Organization in September 1993 and in May 1994, respectively. The appointment of the Special Coordinator was welcomed by the General Assembly in its resolution 49/88 of 16 December 1994. In February 1997, the functions of the Special Representative to the multilateral talks on Middle East peace were combined with those of the United Nations Special Coordinator in the Occupied Territories.
- 3.50 In September 1999, taking into account developments in the Middle East peace process, the Secretary-General decided to establish a new position of the United Nations Special Coordinator for the Middle East Peace Process and his Personal Representative to the Palestine Liberation Organization and the Palestinian Authority (UNSCO). This new arrangement encompassed the previous functions and responsibilities of the United Nations Special Coordinator in the Occupied Territories.
- 3.51 The main objective of the Office of the United Nations Special Coordinator for the Middle East Peace Process and Personal Representative of the Secretary-General to the Palestine Liberation Organization and the Palestinian Authority is to enhance United Nations assistance to the Middle East peace process by ensuring that the Organization is well prepared to respond in a rapid, effective and coordinated manner to requests by the parties related to their negotiations or to the implementation of political agreements. In this regard, the Office of the Special Coordinator provides a well-recognized focal point within the United Nations system vis-à-vis the parties to the peace process, regional and international actors and international and multilateral institutions. The Special Coordinator also serves as the United Nations focal point for the socio-economic aspects of the peace process and related United Nations development assistance for Jordan, Lebanon, the Occupied Territories and the Syrian Arab Republic.
- 3.52 During the biennium 2002-2003, the Special Coordinator will provide a comprehensive framework for United Nations diplomatic and socio-economic support to the peace process within the Occupied Territories and the subregion. Events during the biennium 2000-2001 reinforced two basic premises on which the mandate of the Special Coordinator had been revised in 1999. First, socio-economic development is an essential underpinning of peace in the Middle East; and second, the Israeli-Palestinian negotiations and regional elements of the peace process are intimately interlinked and must be approached within a common framework.
- 3.53 The work of the Special Coordinator had three primary dimensions during the biennium 2000-2001 as follows: (a) support to the Palestinian Authority and donor Governments in their efforts to identify common priorities for development assistance in the context of the peace process, through socio-economic reporting; (b) fostering enhanced United Nations coordination, both within the Occupied Territories and through the resident coordinators in Lebanon, Jordan and the Syrian Arab Republic; and (c) diplomatic support to peace negotiations, including the Secretary-General's good offices.

- 3.54 The major shift between the previous and current biennium is one of emphasis. With frequent calls on the Secretary-General's good offices, increased demands on the United Nations from the parties related to the peace process and increased emphasis on the regional dimension of the Israeli-Palestinian negotiations, the relative weight of the three dimensions of the Special Coordinator's work will change. During the biennium 2002-2003, there will be greater emphasis on diplomatic support to the parties in their negotiations and support for any peace settlement, including relating to the security dimension, and an increased emphasis on activity in Lebanon, Jordan and the Syrian Arab Republic.

Table 3.23 Summary of follow-up action taken to implement relevant recommendations of the Advisory Committee on Administrative and Budgetary Questions and the internal and external oversight bodies

Brief description of the recommendation	Action taken to implement the recommendation
<b>Advisory Committee on Administrative and Budgetary Questions (A/54/7 (chap. II))</b>	
The Advisory Committee requested that criteria be established to clearly define which missions fall under the category of "smaller political missions", referred to in the response of the Secretary-General (para. II.7).	Smaller political missions are entrusted with a peacemaking or peace-building mandate and have no military components, except for a few civilian police and military advisors, and whose international staff do not normally exceed 20.
The Advisory Committee pointed out that over 70 per cent of the Secretary-General's commitment authority under the terms of paragraph 1 (a) of General Assembly resolution 52/223 had been utilized during just five months of 1999. The Committee believed that this trend should be monitored and reported to the Assembly on a regular basis (para. II.10).	The Office of Programme Planning, Budget and Accounts regularly monitors the utilization of the commitment authority granted to the Secretary-General under the General Assembly resolution on unforeseen and extraordinary expenses. In response to the request of the Advisory Committee, a report with an analysis of the experience in utilization and proposals

*Action taken to implement  
the recommendation*

The Advisory Committee trusted that care would be taken to ensure that the newly created Policy Planning Unit would not duplicate or parallel functions of other units and offices of the United Nations (para. II.12).

The Advisory Committee requested that presentation of the subprogramme on electoral assistance be considerably improved in the next proposed programme budget. The Committee also pointed out that there appeared to be no set criteria for determining which electoral assistance activities should fall under the regular budget and which should be funded from extrabudgetary sources. The Committee recommended that the Secretary-General develop such criteria and report thereon in the context of the next proposed programme budget, including information on implementation of resolutions 46/137 and 52/129 (para. II.14).

for adjustment of the various levels of the commitment authority granted by the General Assembly in its resolution on unforeseen and extraordinary expenses was submitted to the General Assembly during its fifty-fourth session (A/C.5/54/29). Consequently, the General Assembly, by its resolution 54/252 of 23 December 1999, approved an increase of up to \$8 million in respect of the Secretary-General's commitment authority under the terms of paragraph 1 (a) of the resolution.

The overall goal of the Policy Planning Unit is to support the role of the Department of Political Affairs as the focal point for conflict prevention, peacemaking and post conflict peace-building in the United Nations system and it therefore does not duplicate or parallel functions of the other units and offices of the United Nations in this regard. The principal activities of the Unit are aimed at developing the Department's capacity with respect to these core activities (conflict prevention, peacemaking, post-conflict peace-building), undertaking research and coordinating the development of policy options on cross-cutting issues and emerging questions that are relevant to the work of the Department as a whole.

Efforts have been made to improve the presentation of this subprogramme. The Electoral Assistance Division has developed a clear description of its activities, which has been distributed to Member States through the dissemination of a small brochure. The Division also prepares and maintains a monthly update of the number of requests received, approved or denied, as well as a list of its ongoing activities. This information is presented every two years to the General Assembly in the report of the Secretary-General on enhancing the effectiveness of the principle of periodic and genuine elections. With regard to voluntary contributions, it is important to distinguish between earmarked and non-earmarked resources. The earmarked resources are generally provided by donors for specific operations in the countries specified and where there is often a larger involvement of the United Nations system in the process of

of the recommendation*

*Action taken to implement  
the recommendation*

---

In connection with UNSCO, the Advisory Committee requested that a review be made to determine whether costs related to the provision made under grants and contributions for rental of sound system equipment, temporary assistance, supplies and cost of publishing reports should not be better budgeted under such objects of expenditure as general operating expenses, general temporary assistance and supplies and materials (para. II.52).

**Board of Auditors**  
(A/55/5, vol. I)

The Board recommends that the Department of Political Affairs comply with established procedures in the preparation of programme performance reports (para. 271).

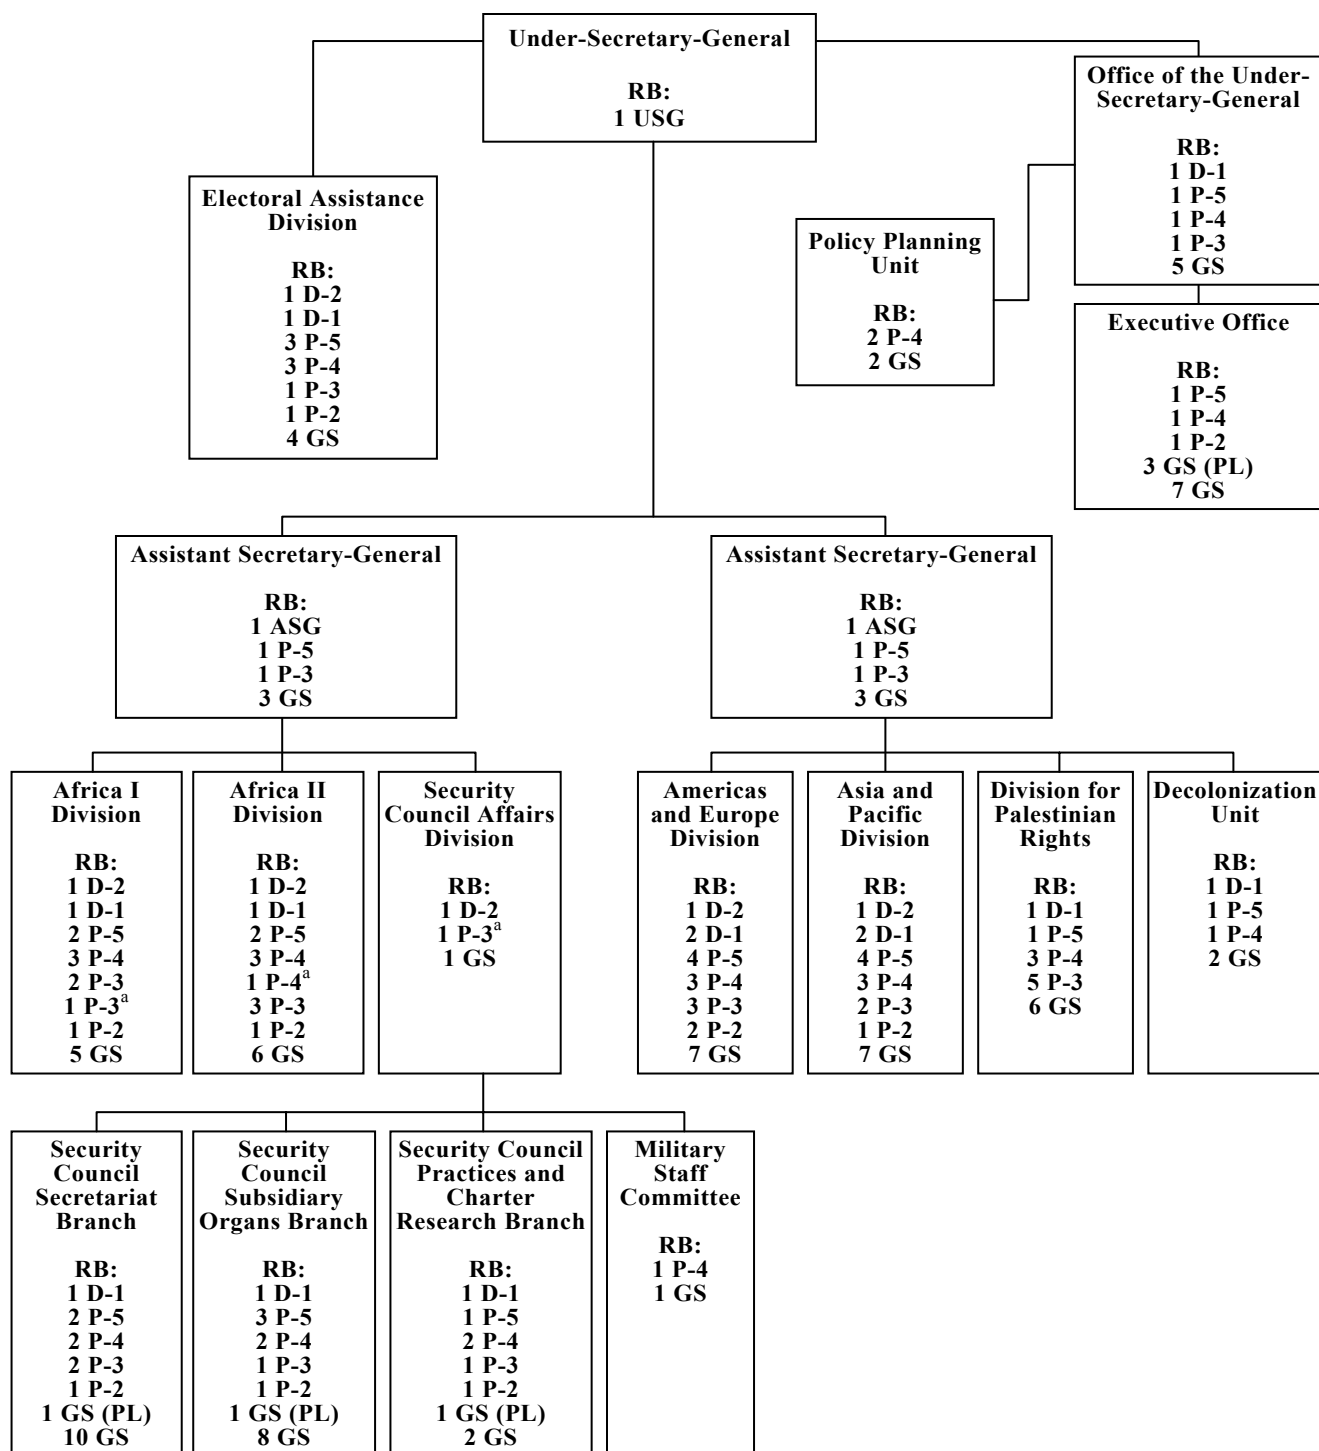

democratization. Non-earmarked resources constitute the smallest part of the Trust Fund and are to supplement regular budget funding with respect to financing needs assessment missions when new requests are received from Member States.

The relevant resources required are now budgeted under the corresponding objects of expenditure based on expenditure experience.

Following the introduction of IMDIS and the training of programme managers in its use, the Department will comply with established procedures in the preparation of programme performance reports.

- A.3.9 Requirements of \$15,265,300, with a net reduction of \$471,100, provide for two new posts (1 P-4 and 1 P-3) and the continuation of 49 Professional and 25 General Service posts. The net reduction results from the redeployment of the Policy Planning Unit (2 P-4 and 2 General Service/Other level posts) to the Office of the Under-Secretary-General, partially offset by the requirements for the two new posts which are required for political affairs officers to strengthen the Africa I and Africa II Divisions in covering countries facing conflicts. The two posts were originally proposed in the report of the Secretary-General on resource requirements for implementation of the report of the Panel on United Nations Peace Operations (A/55/507 and Add.1). The Advisory Committee recommended that they be considered in the context of the submission of the proposed programme budget for the biennium 2002-2003 (A/55/676). The distribution of posts among the four regional divisions is as shown in table A.3.19.

General temporary assistance relates to temporary replacement of staff on maternity leave and extended sick leave and to supplementary staffing during periods of peak workload.

*Travel of staff*

- A.3.11 Resources in the amount of \$507,800, with an increase of \$28,700, relates to travel of staff representing or accompanying the Secretary-General and his special representatives and envoys, undertaking fact-finding and other missions, attending meetings of intergovernmental organizations and participating in conferences and seminars in the areas of prevention, control and resolution of conflicts, peacemaking and peace-building. The growth is attributable to increased travel requirements for desk officers to accompany the Secretary-General during his official travel, as well as requirements related to his initiative to enhance substantially the cooperation between the United Nations and regional organizations and institutions.
